

Transform yourself with CoolSculpting.

The non-surgical body contouring treatment that freezes away stubborn fat.

PROVEN TECHNOLOGY. LIFE-CHANGING RESULTS.

CoolSculpting® is a revolutionary non-surgical body contouring treatment that freezes stubborn fat, which then is naturally eliminated from your body. No needles, no special diet, no supplements, no surgery. And most importantly, no downtime.

It's safe, FDA-cleared, effective, and does exactly what it's supposed to do.

Sculpt your body to your personal ideal.

Show off the body you've always dreamed of and get rid of stubborn fat, without surgery.

Get back into your smaller jeans. Date with confidence.

Turn your body into your best outfit.

Love your reflection.

Finally lose that baby fat.

WITH COOLSCULPTING YOU CAN

Enjoy trying on clothes.

Put "little" back in your black dress.

Wear a bathing suit with pride.

Look great and feel even better.

Results and patient experience may vary. Consult your physician.

In the U.S., CoolSculpting for non-invasive fat reduction is cleared for use on the flanks (love handles) and abdomen. CoolSculpting is a registered trademark and the CoolSculpting logo and the Snowflake design are trademarks of ZELTIQ Aesthetics, Inc. © 2012. All rights reserved. MK15488-B.

HERE'S THE SKINNY ON HOW COOLSCULPTING WORKS:

Many of us have bulges of stubborn fat like muffin tops and belly fat.

Those unwanted bulges contain fat cells, which can be resistant to diet and exercise but not to CoolSculpting.

CoolSculpting uses controlled cooling to target and crystallize fat cells.

Crystallized fat cells gradually die off, then are naturally eliminated from your body.

In the weeks and months following treatment, remaining fat cells condense, reducing the fat layer.

CoolSculpting lets you say goodbye to stubborn fat, without surgery.

CAN YOU PINCH AN INCH? OR TWO? OR THREE?

The ugly truth is, we all have stubborn fat. And as we age, gravity and genetics only make things worse. Proper diet and exercise are not enough to keep these unwanted bulges at bay. CoolSculpting® is the solution for getting back the body you deserve, without surgery or downtime.

GET THE BODY YOU DESERVE THROUGH SCIENCE THAT WORKS.

A simple observation led to life-changing technology.

Developed by renowned Harvard University scientists, Dieter Manstein, MD and R. Rox Anderson, MD, CoolSculpting technology was born of the observation that some children got dimples due to eating popsicles. The idea that cold can selectively affect fat cells was the insight behind Cryolipolysis, the proven science on which CoolSculpting is based.

ONLY YOUR BODY SHOULD GET MORE BUZZ.

CoolSculpting has been getting plenty of attention. See what all the excitement is about.

"I feel confident in a two-piece bathing suit. I haven't had a two-piece on in years and I can walk around with it on. I have a form-fitting dress on and when I walk down the street I feel confident. CoolSculpting is probably one of the best things I've ever done." – Paige, Tampa, Florida
