Hair Removal

LASER Treatment

body
 perfect™
 MEDICAL SPA

Hair Removal

THE PROCEDURE

The most advanced FDA approved LASER technology for permanent hair reduction is safe and effective for treating ALL ethnic origins and skin types including tan skin. Patients should arrive for their appointment shaven (DO NOT WAX OR TWEEZE) and treatment times vary depending on the size of the area treated. LASER hair removal is effective on all areas of the body with a series of six to eight treatments performed every two to three months.

THE RESULTS

LASER hair removal is the most permanent form of hair removal available. Although nothing can guarantee no hair ever, and hormonal changes and some medical conditions can induce hair growth, LASERS give an 80% or more hair reduction with the remaining hair being lighter and finer. LASERS will not be effective on blonde, gray, white, and light red hair.

THE PAIN

A topical numbing medicine may be applied to ease the pain. Oral pain relievers and anti-anxiety medications are available if needed.

THE COST

LASER Hair Removal is priced per area. Costs range from \$100-\$500 per treatment.

www.bodyperfectusa.com

BENEFITS

- Little or no shaving
- Reduction of shave bumps
- No noticeable dark follicles

ALTERNATIVES

- Electrolysis
- Waxing
- Shaving
- Threading

RISKS

COMMON

- Redness
- Swelling
- Ingrown hair

LESS COMMON

- Blister / Burn
- Scar
- Infection

BEFORE

This young female client had chin hair which is a common embarrassing problem for women young and old.

AFTER

After ten treatments spaced about two months apart she is virtually hair free.

BEFORE

This young man had thick, dark hair on his shoulder and would not remove his shirt in public.

AFTER

After eight treatments spaced about threemonths apart the hair is very sparse.

BEFORE

Thick, coarse underarm hair can be very irritating and shaving is uncomfortable.

AFTER

After just three treatments spaced about every three months this thick, coarse hair is well on the way to being completely eradicated.

WHAT CAN LASER HAIR REMOVAL DO FOR YOU?

LASER Hair Removal is the best way to reduce hair! After a series of treatments you will shave less, if at all, and will see a reduction of shave bumps. Those dark follicles that could be seen even after shaving will no longer be noticeable leaving smooth soft skin that is...
