LASER Treatment

 MEDICAL SPA

Hand Rejuvenation

THE PROCEDURE

Three different FDA approved LASERS may be used to hit sun spots, smooth overall pigment, address wrinkles and thin, loose skin. After a 45 minute treatment sunscreen is applied and recommended to prevent future damage.

THE RESULTS

Sunspots may darken or crust initially for 1-2 weeks, after which they may appear lighter, pink, or disappear. Three to six treatments spaced 3-6 weeks apart will create smoother, younger looking hands.

THE PAIN

A topical numbing medicine may be applied to ease the pain. This generally controls the discomfort and renders the treatment pain-free. Oral pain relievers and anti-anxiety medications are available if needed.

THE COST

Hand Rejuvenation is priced \$200 per treatment.
