Laser Peel

THE PROCEDURE

The FDA approved Erbium LASER removes the dull, lifeless, damaged top layers of skin. The depth of peel will determine the results as well as the down time. Virtually everyone will see improvement in their skin texture and tone with this treatment. It is the procedure of choice for acne scarring.

THE RESULTS

Redness, swelling, peeling and recovery time will depend on the depth of the peel and ranges from two to ten days; Body Perfect Healing Inducer, applied as directed, will greatly speed recovery and improvement may continue for several months. A series of 3-5 treatments, spaced approximately 6 weeks apart will usually achieve the desired results.

THE PAIN

A topical numbing medicine may be applied to ease the pain. This generally controls the discomfort and renders the treatment pain-free. Oral pain relievers and anti-anxiety medications are available if needed.

THE COST

This treatment is priced at \$300 - \$600.

BEFORE

This client's skin is very red with multiple raised moles, large pores, acne scarring, lines and sagging.

AFTER

After three LASER treatments, her skin tone is beautiful, raised moles are gone, sagging and scars are reduced. She now looks brighter, happier and smoother.

BEFORE

This male patient had pigmented hyperkeratosis on his forehead.

AFTER

After one peel he is on his way to smoother more evenly pigmented skin.

BEFORE

Deep acne scarring had left its mark on the cheeks of this female patient.

AFTER

After just one deep LASER peel her skin more smooth and even.

WHAT CAN LASER PEEL TREATMENT DO FOR YOU?

With one quick pass of the Erbium LASER you will see improvement to damaged skin. This treatment helps to diminish age spots, reduce deep wrinkles, and eliminate fine lines. Pores appear smaller, scars are less apparent and you will have a radiant glow that is...
