## Leg Veins

### THE PROCEDURE

This revolutionary new FDA approved LASER treatment for leg veins can safely eliminate unsightly vessels up to 4mm in size by collapsing the unwanted vein while protecting the skin with a cooling device.

### THE RESULTS

Leg veins may literally disappear before your eyes or may resolve over the next several weeks. Three to four treatments spaced 2 months apart are generally required for resolution

### THE PAIN

A topical numbing medicine may be applied to ease the pain. Oral pain relievers and anti-anxiety medications are available if needed.

### THE COST

Treatment is priced on the time required to treat and will range from \$250-600 per treatment.
